Co. 450 C.C.C. WHITE SPRINGS FLA
VOL II - No 24 JANUARY 3, 1935

Lt. W. D. Cailleteau Leaves

On his departure Lieutenant Walter D. Cailleteau expressed his regret as to leaving this Company and especially that he could not wait in camp long enough to give the company a last farewell address. He wished everyone the best of luck and hoped that everyone would have a great future.

Lt. Cailleteau, 1st Lt. 347th Infantry, was a resident of Alexandria, Louisiana when he was stationed here. He began his C.C.C. service in June of 1933 when he was Commanding Officer of the Supply Company "E", CCC and Headquarters Police Officer as well as Plans and Training Officer for reconditioning camps during the November enrollment one year ago.

Changes are being made by the camp carpenter Mabery Bell on the heaters in camp. The wood part of the roof around the smokestack is being cut so that it will decrease the chances of catching fire when the stoves are hot.

-- -- -- --

The boys string band of this camp seems to be growing in popularity. They have been invited to play at several country square dances in the last month or so. The latest one was at a dance near Genoa Thursday night.

LIEUTENANT GARNER TAKES CHARGE

Lieutenant S. B. Garner, who is the new Company Commander, arrived in camp during the early part of this week. He took command of the Company as soon as everything could be transferred over to him.

Due to the amount of work that has accumulated during the week he was too busy to make any statement to the members through this issue.

Lt. Garner has served three tours of duty in the Civilian Conservation Corps and he comes here after having served twenty four months in the service. He was last stationed in Shady Grove. His home is in a camp in Tennessee.

Mr. J. H. Addison, forester of this camp, has accepted a position as Building Inspector for the P. W. A. He was in service here for only a short while.

SUWANNEE PHILOSOPHY
By C. W. Johnson

I don't give Adam for all the Eden and drinkin' that goes on on New Years eve.

Of all the vices, advice is the worst.

Just because some guy glues his eyes on you is no sign that you have to paste him on the jaw.

Do you know the poor sucker who thinks that a handicap is a cap for all occasions?

They may be just "Three little words," but they can cause a lot of trouble.

Jail! jail! the gang's all here, what the cell do we care now?

The whole trouble started in a fit of coughin' and ended in a fitted coffin.

He tried and tried (without success) to blow the saddle horn.

Won, too, tree, for, fife, sicks, sever, ate, nein, tent.

NEW POOL TABLE

There will be a new pool table purchased in the near future, it is reported, and it will be placed in the recreation hall. If and when this table is secured, it will add greatly to the entertainment that is offered in camp.

Jack--Did you see me down town yesterday? I saw you twice.
Jane-- I never notice persons in that condition.

CCC ENTERTAINERS

There was a show put on by the C C C Entertainers last Tuesday night after pay day. The enrollees were filled with laughter and fun. The show was enjoyed by everyone present and it lasted for one hour and a half. The clowner was very clever with his magicial tricks and his escape stunt. It is hoped that we will see some more shows of this type in the near future. His tricks with the cards puzzled many of the boys and the show ended with several of the stunts still a mystery. W. Reynolds won a prize by being the best rooter in a pan of flour, in trying to get a coin out with his mouth.

DR. MONTGOMERY TALKS

On the night of December 31, Dr. E. F. Montgomery gave another of his talks. He used stereopticon slides along with his talk . His talk of "The Other Wise Man" was well illustrated by the slides and the continuity of his facts of the event.

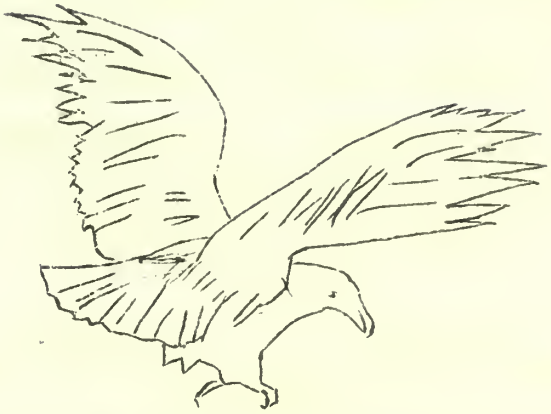
Discharges of the Week

Victor Kerr, of Jacksonville, Fla., was discharged Honorably to accept employment on December 29, 1935.

Lonnie Nelson, a Leader, was discharged on January 2. He was Honorably discharged.

Attention Please

The kitchen force would appreciate it very much if the men will do all in their power to help keep the new plates in good shape. The worse they are bent up the harder they will be to keep clean. You can show your appreciation by showing your cooperation. A little effort on your part will take a great amount of work off the regular kitchen police.



AN EAGLE'S EYE VIEW

The overhead of this camp is unanimous in the hope that they will never have to go through another complete turnover such as they have just completed. There was plenty of work and worry for everyone of them.

From the appearance of the camp area after the heavy rain last night, is looks as though the dust will be settled for a good while.

With the aid of the new plates, the members of this camp find it much more convenient at mealtime.

The first fire call in several weeks was made Thursday afternoon. Ten men that were sent to put out the fire were gone about one hour.

At last we have had a few days of the kind of weather on can enjoy.

Facts from the FORESTRY PRIMER

We use fourteen and a half billion cubic feet of wood a year; fires and insects destroy one and four-fifth billion cubic feet.

North America, with one-twelfth of the world's people, uses about one-half of all the timber consumed in the world.

More facts will follow in later issues.

Who is it that Dyal has gone ga-ga over? He met her in a popular cafe in town the other night. Dyal, some of the other boys will help you out if you will only give them a chance.

Yoemans said he had been here over seven months and had not met one Lake City girl until last Sunday night, but boy, look at his smoke from now on.

There is a girl in White Springs that wants to meet B.B. the boy that played Santa Claus while he was home for the Christmas holidays,

We hear that Carl Hurt is going to get "hitched" to a good looking girl who lives in Live Oak. We wonder if and when this catastrophe is going to take place. It is hoped that the results aren't fatal.

Suwannee Sludge (Cont.)

What was it that the clown had his hand on Tuesday night when he proved he was a mind reader?

Why was Ward crying last Wednesday?

Which boy is it that has succeeded in taking Dyal's girl away from him?

Who were the three boys dressed in white that were supposed to be tourists?

Just imagine the names given the animals that took part in the show the other night in the recreation hall.

It is reported that R. B. E. was seen in Lake City with TWO girls one night. What is the meaning of this?

It seems some of the boys in camp have been testing "firewater" for its possibilities as a shampoo. Lott and Longo report their experiments successful. Their laboratory wa the middle of a city street.
